

Welcome

Green Haven Assisted Living prides itself in delivering superior care to our residents. We provide a loving home for our seniors. Spacious living areas, decorations, and the freedom to enjoy the amenities of the home, leaves residents with a "homey" feeling. We are truly "a place to call home".

As the population ages, many individuals are no longer able to live independently in their homes. We provide a home-based assisted living as a viable option for them. Our goal is to provide quality care, while preserving the dignity and independence of our residents.

Our enthusiastic caregivers are well-trained, and are dedicated to the satisfaction of each resident. They give equal support and assistance to residents; tailored to the individual's need. In addition to our caregivers and managers, our staff consists of two registered nurses, who are available 24 hours per day. Together, our staff has over ten years of experience.

...CONSCIENTIOUS COMPASSIONATE CARE...
